Primary Examiner, Art Unit 1795**NOTICE OF ALLOWABILITY**

1. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance is the limitation that "the first side surface is adapted to concentrate the light emitted from the light guide to the surface of the optical element". No such adaptation could be seen in the prior art of record, nor could motivation to so adapt the prior art structures be found. The claims are therefore considered to be patentably distinguished from the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Jeffrey T. Barton whose telephone number is (571)272-1307. The examiner can normally be reached on M-F 9:00AM - 5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam Nguyen can be reached on (571) 272-1342. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
